The basic idea that theological (philosophical) things hold
"recognition" natural laws is found
in Another World Technigica.

While they have the omnipotence to make the "recognition" real,
they also have the constraint that it cannot exist
without the others who create that recognition.

神学的なものは「認識」上の自然法則を持つ
という基本思想が、
異世界テクニジカにはある。
「認識上のもの」を現実化するという万能性がありつつも、
その認識を生む他者がいなければ
実存を保てないという制約性も持つ。
