

#FoT711: Frequency of Debris With '◁>'

Please note that during times when I am focusing on other works, simply busy, or experiencing some changes in my/our work environment, the frequency of posts marked with <Drawing>, <Construction>, or <Coordinate Translation (C.T.) > in this #FoT series may increase, and the quality of the posts may be unstable, I/we ask for your forgiveness in advance.

However, I/we will continue to post on the Internet so that I/we can live up to our claim of "#everyday".

Category: About Technigical Translation

Attribute: No Attribute

Location: A Certain Point 【aCP-】

Appendix: Appendix: I/we would have no problem if the quality and recognition of Technigica would increase dramatically just by continuing to do this, but it doesn't seem to be working out that way...sorry..... .
